

NAVEEN KUMAR BASAPOGULA

Full Stack Python Developer | Data Engineer

Hyderabad, Telangana, India | kumarbn37@gmail.com | +91 9701853505

[linkedin.com/in/naveen-kumar](https://www.linkedin.com/in/naveen-kumar) | github.com/Naveen10062003

PROFESSIONAL SUMMARY

Full Stack Python Developer and Data Engineer with 2 years of experience building backend systems, REST APIs, and ETL pipelines end-to-end — from development to containerization and cloud deployment. Delivered 2+ production backend modules for an enterprise HR platform with JWT, RBAC, and MFA security. Hands-on with FastAPI, PostgreSQL, Docker, and AWS (EC2, RDS, S3) for full-cycle development and deployment. Experienced in Agile workflows and AI-assisted development. Open to using AI tools for productivity, scripting, troubleshooting, documentation, and automation as needed.

TECHNICAL SKILLS

Languages	:	Python, SQL
Frameworks	:	FastAPI, Flask, Streamlit
Libraries	:	Pandas, NumPy, Matplotlib, Seaborn, Plotly
Frontend	:	React (Vite), Axios
Databases	:	PostgreSQL, SQLite
Cloud (AWS)	:	EC2, RDS, S3, SSO
Cloud AI Tools	:	Cloud AI, AI-assisted development, AI-assisted automation & scripting
DevOps & Tools	:	Docker, Docker Compose, Git, GitHub
Python Scripting	:	Automation scripting, task automation, troubleshooting scripts, documentation scripting
Technologies	:	REST APIs, Microservices, Redis, JWT, RBAC, MFA, SQLAlchemy, OpenCV, OCR

WORK EXPERIENCE

Full Stack Python Developer | Coderview Technologies Mar 2025 – Apr 30, 2026 (Last Working Day)

Dept: IT-CloudServices | Project: Crewzy HR Management System | Hyderabad, India

- Built a microservices-based HR platform end-to-end for 3+ business units serving 500+ concurrent users.
- Built 2+ REST API modules with FastAPI and SQLAlchemy, cutting development cycle time by 30%.
- Implemented JWT, RBAC, and MFA security, reducing unauthorized access incidents by 95%.
- Optimized PostgreSQL and Redis caching, reducing API response time by 45%.
- Containerized 5+ microservices with Docker, ran and managed containers, and streamlined CI/CD automation, cutting release effort by 60%.
- Deployed and managed cloud infrastructure on AWS EC2, RDS, and S3, handling the full backend deployment lifecycle.
- Used Cloud AI tools to assist with development, scripting, troubleshooting, documentation, and workflow automation.

Data Analyst Intern | Coderview Technologies

Hyderabad, Telangana, India

- Built an end-to-end ETL pipeline processing 50,000+ records, reducing data processing time by 60%.
- Created a Streamlit + Plotly dashboard displaying real-time KPIs, improving reporting efficiency by 35%.
- Performed data cleaning and feature engineering with Pandas and SQL, improving accuracy by 28%.
- Containerized analytics app with Docker for scalable, portable delivery across environments.

PROJECTS

Customer Shopping Data Analysis | Python, Pandas, SQL, Docker

- Built an ETL pipeline analyzing 50,000+ retail records; identified sales trends improving inventory decisions by 25%.
- Delivered Matplotlib and Seaborn visualizations with actionable insights for marketing and inventory teams.
- Containerized pipeline with Docker for reproducible deployment across environments.

Smart Traffic Enforcement — Vehicle Identification & Speed Measurement | Python, OpenCV, OCR

- Built real-time vehicle detection and speed measurement system using OpenCV and OCR, achieving 92% plate recognition accuracy.
- Automated traffic violation detection, reducing manual enforcement effort by 80%.

EDUCATION

B.Tech — Computer Science & Engineering | June 2020 – April 2024

YSR Engineering College, Yogi Vemana University — Kadapa, Andhra Pradesh | CGPA: 7.3 / 10

CERTIFICATIONS

- AWS Developer Associate: Optimizing AWS — Skillsoft | July 2026
- Introduction to AWS: AWS Fundamentals and Navigation — Skillsoft | June 2026
- Data Analytics Essentials — Cisco | March 2025
- Microsoft SQL Server — Coursera | June 2024
- Python Programming — InternPE | November 2023
